

# Make an egg carton crab

## You will need

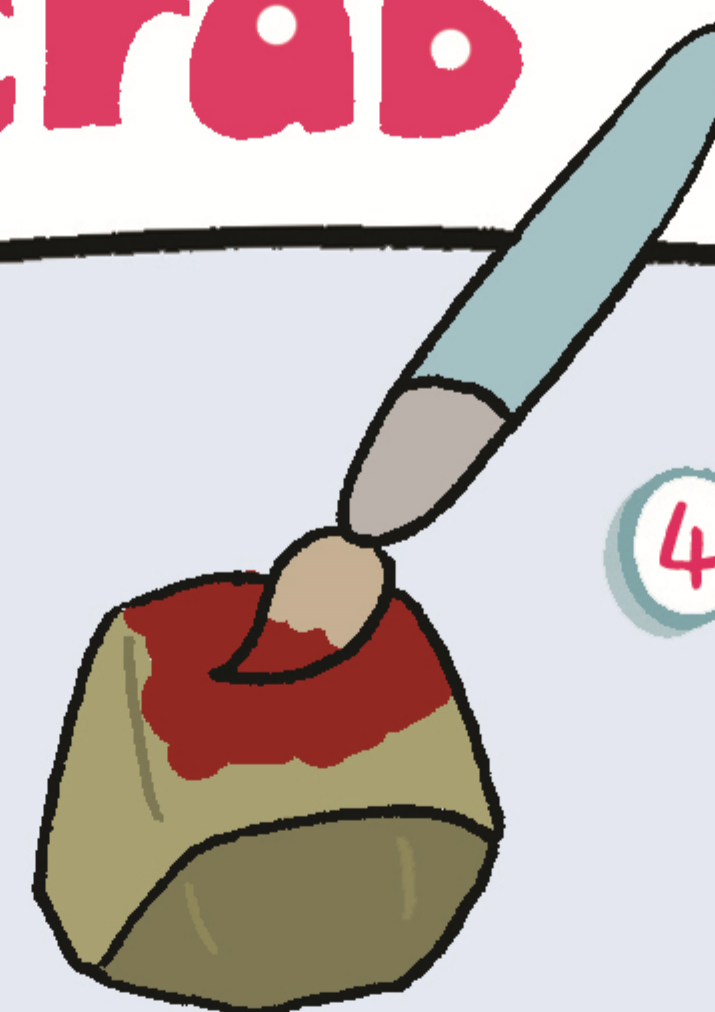

- One section of egg box (already cut out) 
- Four pipe cleaners (orange is a great crab colour!) 
- Two googly eyes 
- Paints and brushes 
- Double sided sticky tape 
- Scissors 
- Pencil 
- Felt pen 

You can make other creatures too... think about centipedes and ladybirds.

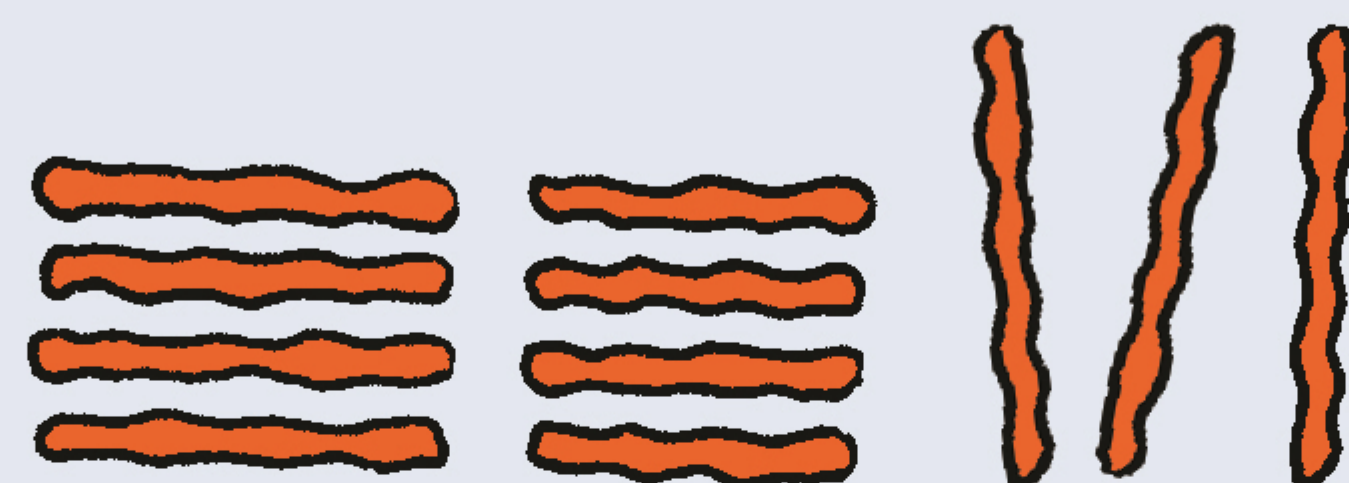

Use pom poms for heads!

1 Paint the egg box section inside and out to make the crab's body. Leave to dry for a few minutes.

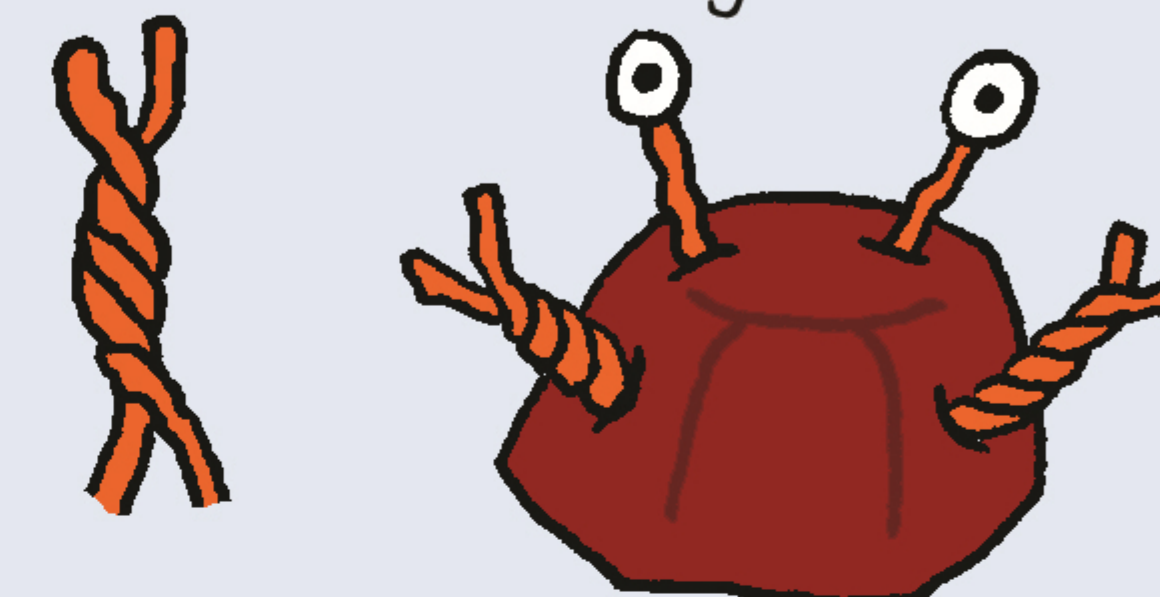

2 Cut eight pipe cleaner legs (all the same length) plus three longer pieces.

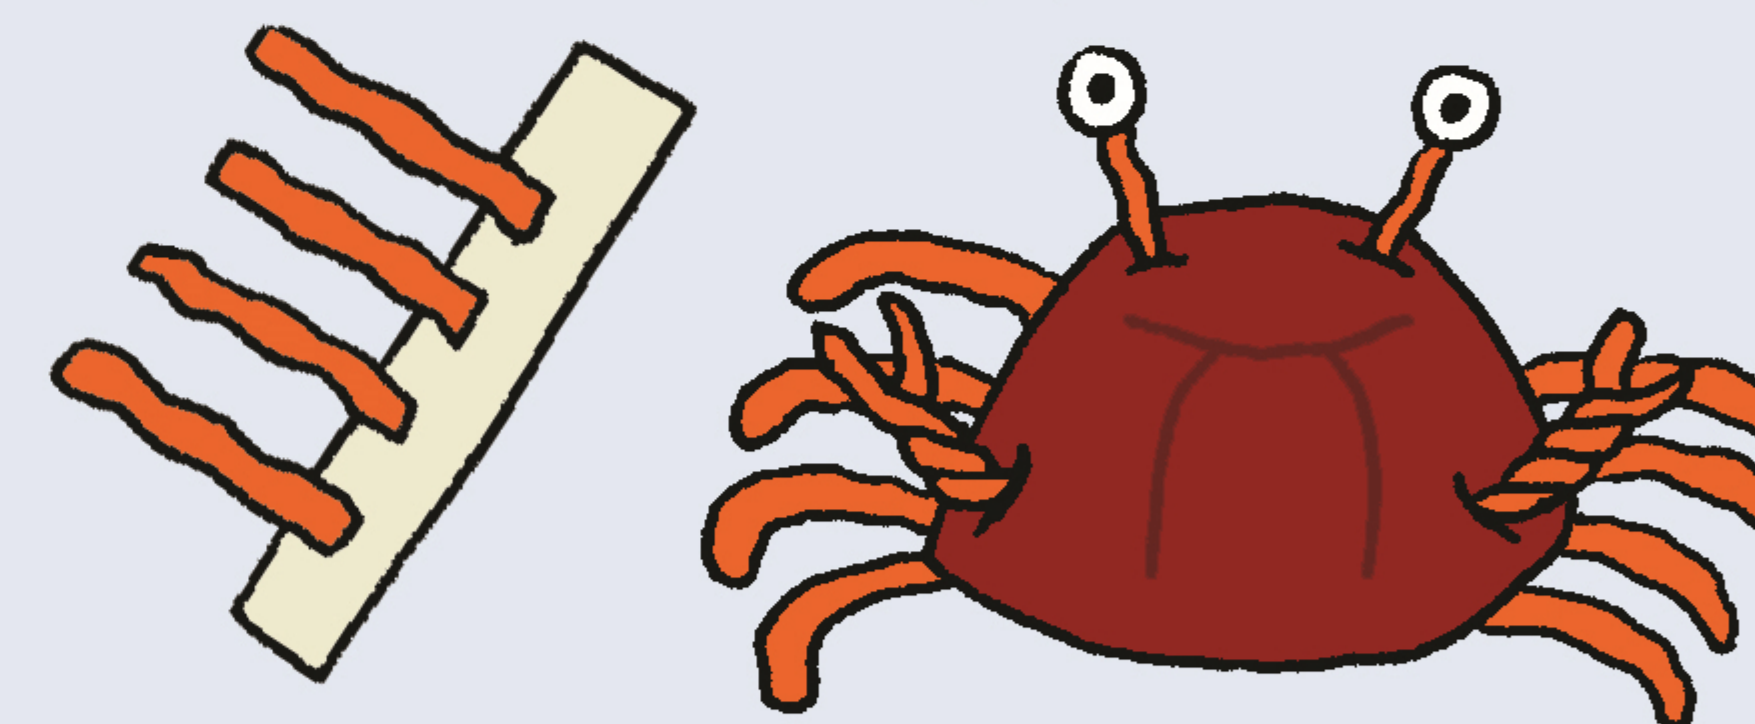

3 Make two holes for eye stalks with a pencil, and poke one long pipe cleaner through to make two eye stalks. Stick the googly eyes onto the tips of the eye stalks.

4 Twist the other two long pipe cleaners together, make two holes in the front of the body and poke the twisted pipe cleaner through to make claws.

5 Stick four leg pipe cleaners onto double sided tape and then stick them under the body to poke out. Repeat on the other side with the other four pipe cleaners.

6 Draw on a smiley mouth!
