

Make your own binoculars

You will need

- Two cardboard tubes (you can use toilet roll tubes)
- String
- Paper
- Scissors
- Glue
- Rubber band
- Hole puncher or pen
- Felt tip pens (optional)

- 1 Cut your paper to size, then cover your tubes with glue and wrap the paper around them.

- 2 Using a pen or hole puncher, insert a hole at the side of each tube, about a third of the way down.

- 3 Glue the two tubes together so that the holes are facing the outside.

- 4 Insert string into one of the holes from the outside of the tube. Bring it through the tube and tie a chunky knot. Gently pull the string back from the outside. Repeat on the other side.

The knot will stop the string coming back through the hole.

- 5 Place a rubber band around the tubes to help the glue set. Leave to dry over night.

- 6 Remove the elastic band and then decorate them with pens!

- 7 Go wildlife detecting!
