

Natural sculptures

- Have a good search around the area to collect a range of natural materials to make your own sculpture of a minibeast.
- You will need to look closely at one of the minibeasts that you have already found using a viewer to help you notice all the details.

OR

- Have a look at one of the pictures of a minibeast – can you make your sculpture as accurate as possible?
- How many legs has your minibeast got?
- How many body segments has your minibeast got?
- Does it have long or short antenna?
